DESERVES WELL OF FARMER

Phoebe's Voice is Faint and She Certainly is Not Pretty, but She Hates All Beetles.

After you're well acquainted with the phoebe and catch some of her spirit of friendliness and companionship, you won't care a snap of the finger that she can't sing very well, nor that she isn't good looking. You'll welcome her in spring just as if she were a Venus for looks and Melba for voice, You'll listen for her first notes and

say: "There's Phoebe back again." She's the earliest arrival among the flycatchers, reaching here about March 21, even before the flies. She seeks out her last year's home under the bridge, or beneath the rafters of the barn, and starts renovating her nest. Often when an unscrupulous cowbird usurps the nest to lay eggs of her own, the phoebe will build another nest atop the old one and start housekeeping over again as if nothing had interrupted.

We've remarked that she couldn't sing, yet her little "phe-bee" note is one of the cheeriest of springtime. We've said she wasn't beautiful, yet her dull olive-brown coat, with a yellowish-white breast are far more attractive than some birds of gay plumage. The phoebe is beautiful because she is useful.

From the time of her arrival until she leaves late in the fall she's busy warring on the farmer's enemies. for a beetle. Suddenly she will dart into the air and her bills go shut with a snap-good-by beetle. She is a forest conservationist, because she eats the elm leaf beetle. She is the farmer's friend, because she eats the May beetles and click beetles, which injure crops. She is the gardener's friend because she eats the squash beetle.

In fact, she is the friend of everyone North American.

Totem Pole Must Don Some Clothes. Clothes make the totem pole, according to John Oscar Davis, collector

of the port, at San Francisco. Horrified at what he saw when a Burmese specimen consigned to the Rev. J. H. East of Portland was uncovered at the customhouse early in February, Collector Davis has now recovered sufficiently from the shock to announce that when the proper habiliments have been placed on the relic it may be allowed to proceed on

its way to the indignant consignee. Painting, the collector said, had been considered, but clothing would be better. "His plan now is to arrange for a proper costuming of the mooted totem pole at the expense of Doctor East and that then the curio, decorously accoutered for appearance among the most select circles, might be allowed admission to the land of the free and the home of the brave.

and while she was looking in an old closet a gust of wind slammed the door and locked it from the outside. There was no one but herself in the house, and it was nearly an hour before Mrs. Cordery's screams happened to be heard by a gang of men who were repairing the road. With all the doors locked downstairs, Harry Rickards climbed to the second floor and got through by a window. When Mrs. Cordery was found she was in a pitiable state.
